

**GMC** | Green  
Machine Co.

WE NEED THE **CHANGE**  
**TOMORROW MATTERS**

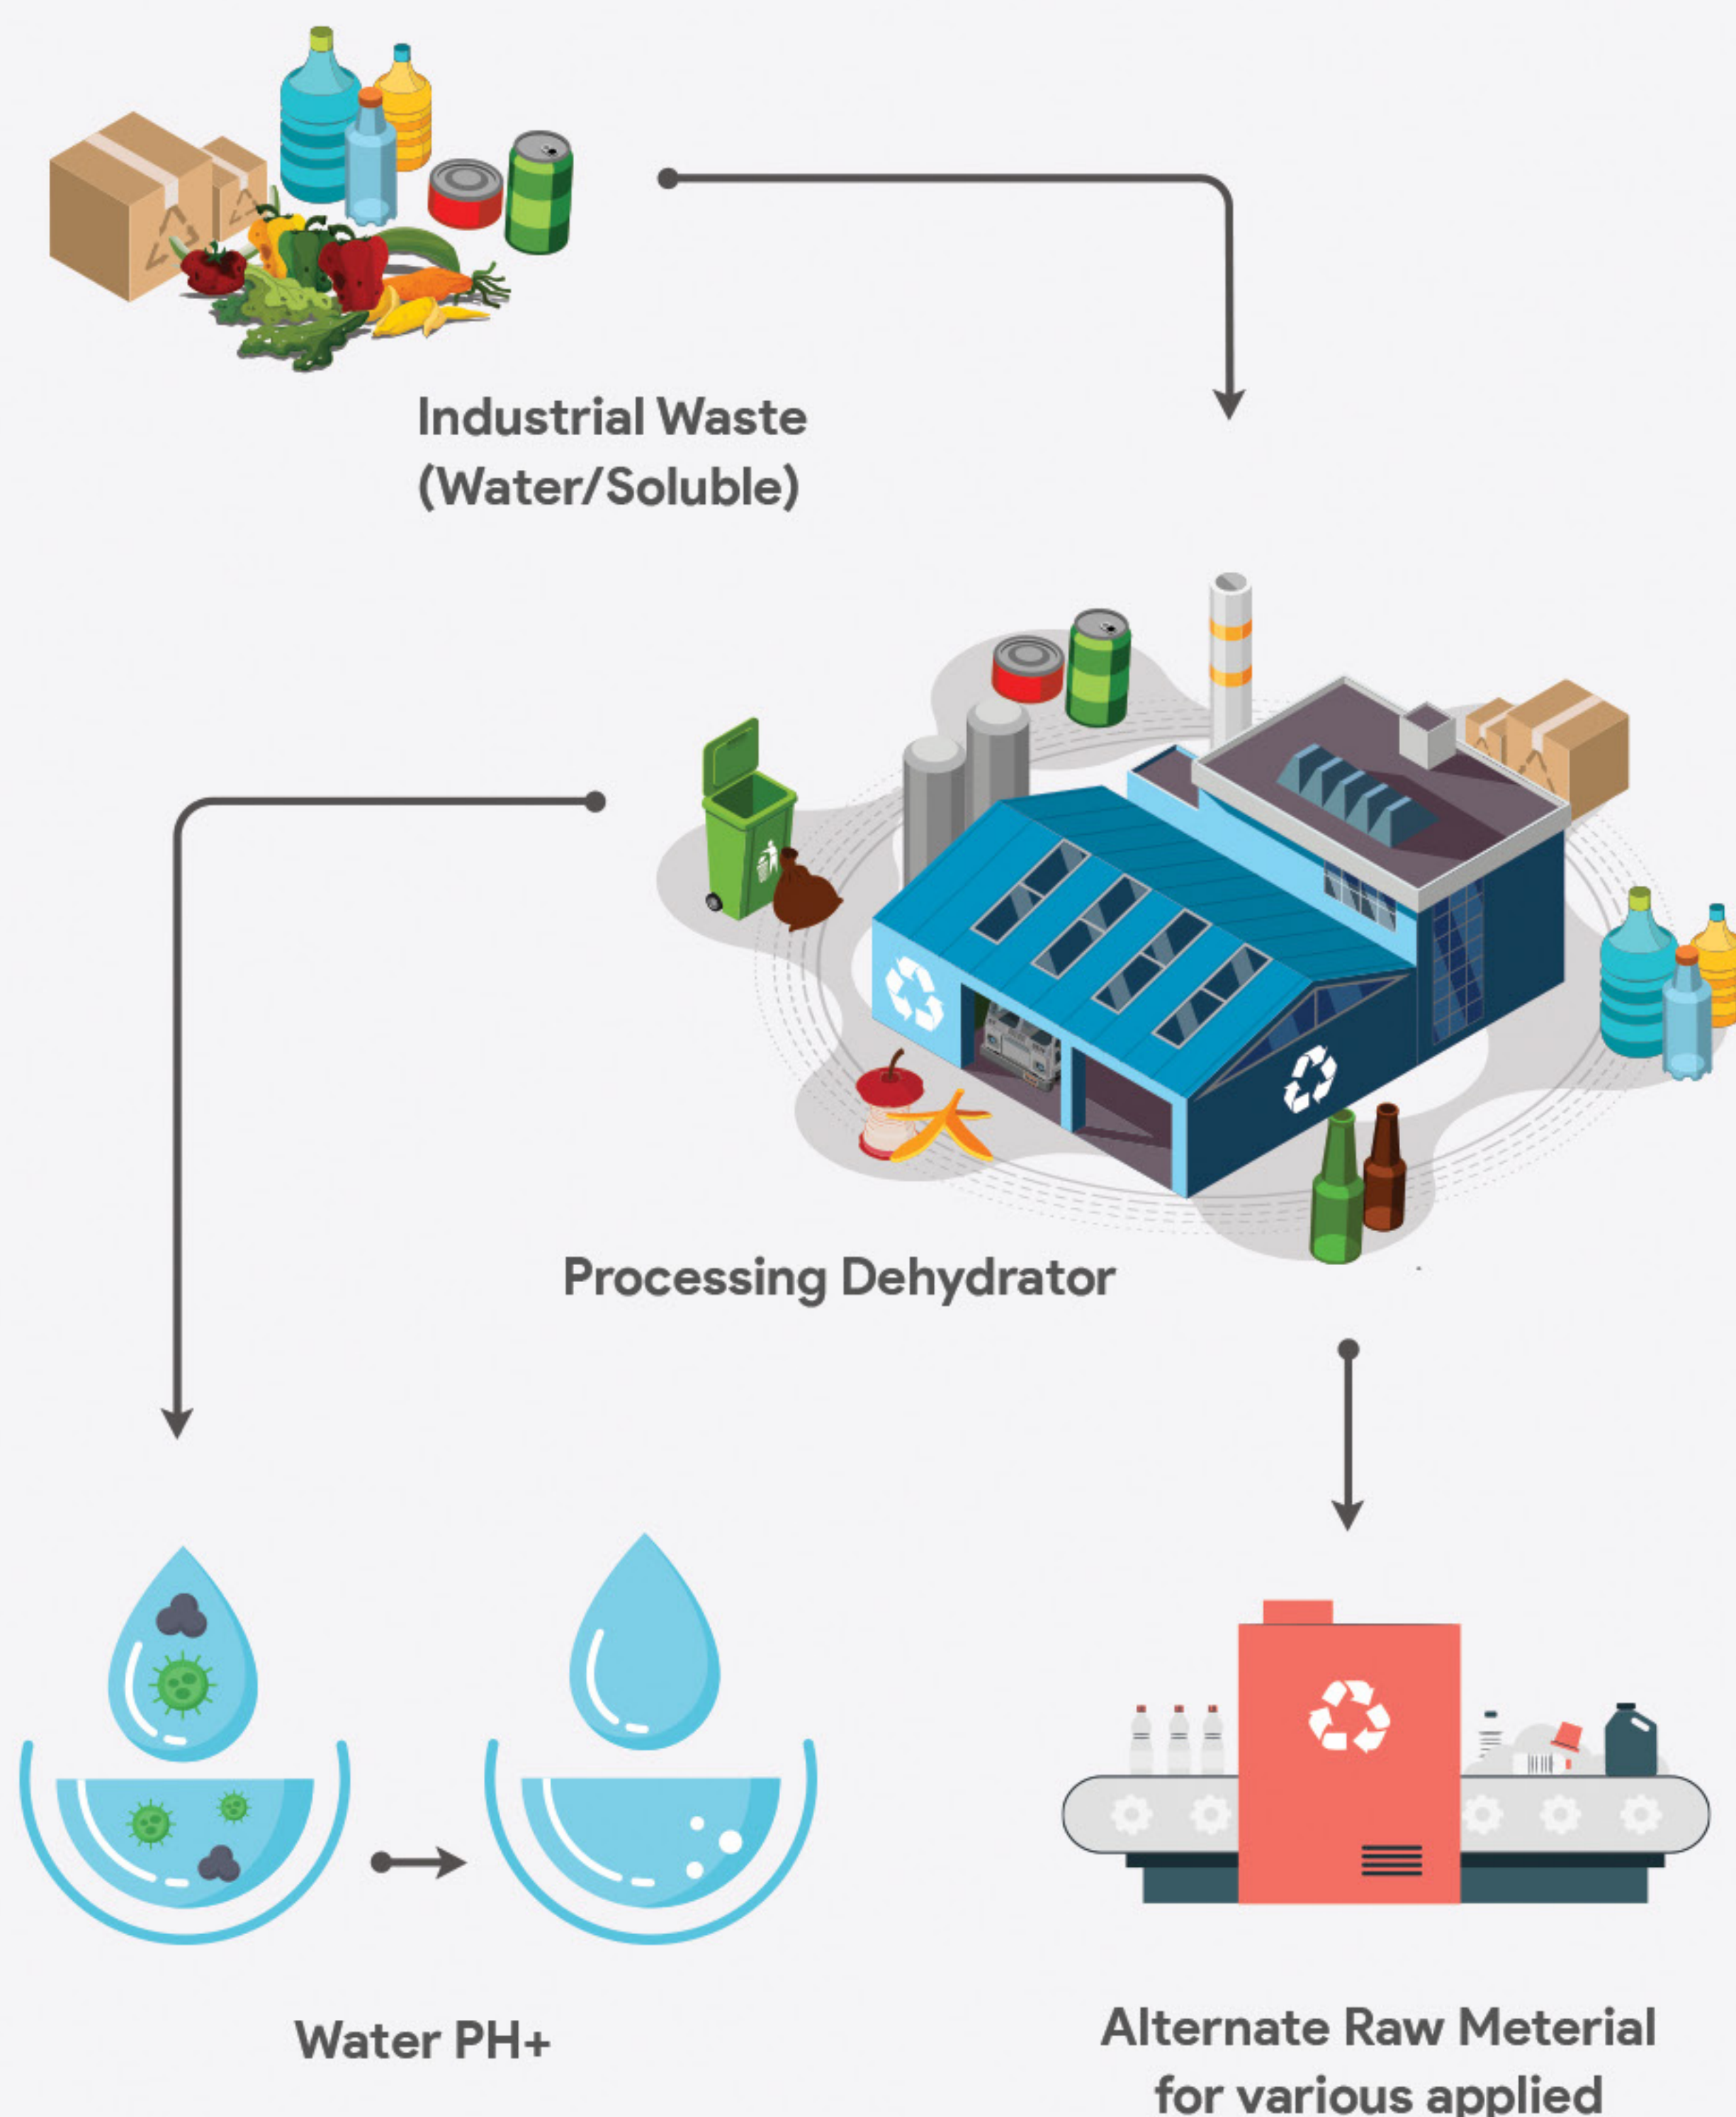

# ABOUT US

We at The Green Machine Co have a belief. We want to partner in preserving the ecosystem for future generations. Our customers are environmentally responsible companies/societies who care and are willing to participate in change.

We also undertake projects where there is a need to improve nature thru simple electrical & mechanical automation. We consult, handhold and even supply organic accelerators to arrest growing environmental needs. We challenge the traditional treatment of "waste" and aspire to promote the "waste to wealth" initiative.

**Join the green army.** Save the environment, save manual scavenging, generate revenue.

## OUR APPROACH

# WHAT DO WE DO

## CONSULTING

- Waste Management Advisory
- Waste Recycling & Monetization
- Promote Sustainable Development Goals

## SOLUTIONS

- Electromechanical Devices
- Organic Accelerators
- Up to Zero-Waste Recycling

## TRAINING
